WEB DEVELOPMENT INTRODUCTION

WEDE5020 DISDO601 GR1

1. Organisation Overview

Organisation Name

Gift of the Givers Foundation

Brief History

Gift of the Givers Foundation was established in 1992 by Dr. Imtiaz Sooliman. It is Africa's largest disaster response non-profit organisation and provides humanitarian aid both in South Africa and internationally. The organisation assists communities affected by natural disasters, poverty, hunger, conflict, and health crises through emergency relief, food distribution, medical assistance, education support, and community development projects. (Gift of the Givers Foundation, n.d.)

Mission

To provide humanitarian relief and restore dignity to people affected by disasters, poverty, and conflict regardless of race, religion, or nationality. (Gift of the Givers Foundation, n.d.)

Vision

To create a world where vulnerable communities receive rapid humanitarian assistance and opportunities for long-term development. (Gift of the Givers Foundation, n.d.)

Target Audience

- Individual donors
- Corporate sponsors
- Volunteers
- Government partners
- Schools and universities
- Communities requiring humanitarian assistance

(Gift of the Givers Foundation, n.d.)

2. Website Goals and Objectives

Goals

- Increase online donations by 30%.
- Recruit more volunteers.

- Improve awareness of humanitarian projects.
- Make it easier for users to contact the organisation.
- Share news and emergency updates.

Key Performance Indicators (KPIs)

- Monthly website visitors
- Number of donations
- Volunteer registrations
- Contact form submissions
- Average time spent on the website
- Bounce rate
- Social media shares

3. Current Website Analysis

Strengths

- Professional appearance
- Clear donation options
- Good information about projects
- Mobile-friendly
- Trusted organisation

Weaknesses

- Homepage contains a lot of text.
- Navigation can be simplified.
- Donation buttons could be more noticeable.
- Some pages have inconsistent layouts.
- Limited interactive content.

Areas for Improvement

- Simpler navigation menu
- Larger donation call-to-action buttons
- Improved search function
- More videos and image galleries
- Better accessibility for visually impaired users

4. Proposed Website Features and Functionality

Main Pages

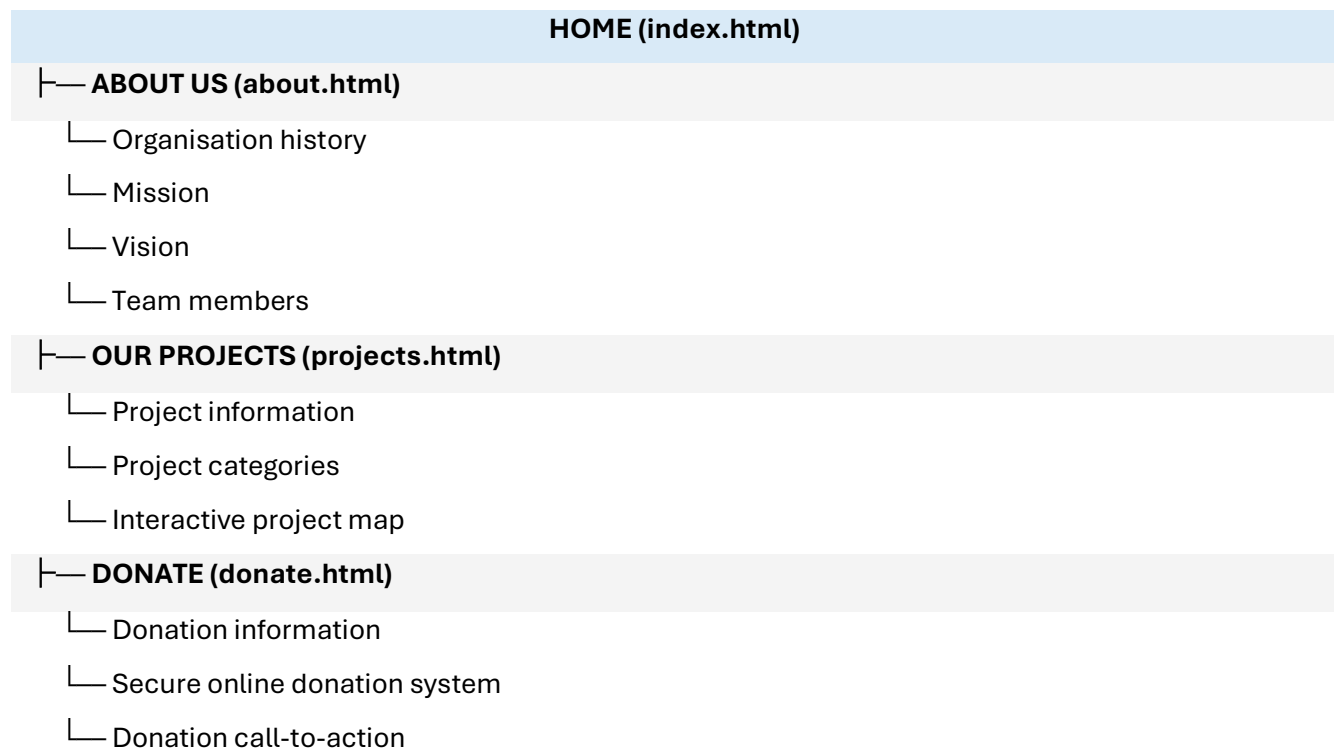

- Home
- About Us
- Our Projects
- Donate
- Volunteer
- News & Events
- Contact Us
- Frequently Asked Questions

Functionality

- Secure online donation system
- Volunteer registration form
- Contact form
- Newsletter subscription
- Search functionality
- Social media integration
- Interactive project map
- Responsive mobile design

4.1. Sitemap:

The website hierarchy is structured as follows:

└─ **VOLUNTEER (volunteer.html)**

- └─ Volunteer information
- └─ Volunteer registration form

└─ **NEWS & EVENTS (news.html)**

- └─ Latest news
- └─ Emergency updates
- └─ Events

└─ **CONTACT US (contact.html)**

- └─ Contact information
- └─ Map / locations
- └─ Contact form

└─ **FREQUENTLY ASKED QUESTIONS (faq.html)**

- └─ Common questions
- └─ Answers and guidance

Wireframes from the Site Map

The following low-fidelity wireframes represent the main pages in the proposed site map.

5. Design and User Experience

Colour Scheme

- Dark Blue (#003366)
- White (#FFFFFF)

- Orange (#F58220)
- Light Grey (#F4F4F4)

Typography

- Headings
- Poppins Bold
- Body Text
- Aptos or Arial
- Buttons
- Bold, easy-to-read text

Layout

- Clean homepage
- Large hero image
- Clear navigation bar
- Cards for projects
- Footer with contact details and social media links

User Experience Considerations

- Easy navigation
- Fast loading pages
- Mobile responsive
- Accessible colour contrast
- Simple donation process

These colours create trust while highlighting important actions such as donating.

6. Technical Requirements

Domain Name

- giftofthegivers.org (or similar)

Hosting

- Cloud-based web hosting with SSL certificate

Programming Languages

- HTML5
- CSS3
- JavaScript

Frameworks

- Bootstrap
- PHP (contact forms)
- MySQL database

7. Timeline and Milestones

Week	Milestone
Week 1	Research organisation
Week 2	Website proposal
Week 3	Wireframes
Week 4	HTML structure
Week 5	CSS styling
Week 6	JavaScript functionality
Week 7	Testing
Week 8	Final submission

8. Budget

Item	Estimated Cost (ZAR)
------	----------------------

Website Design	R12,000
Front-end Development	R15,000
Back-end Development	R18,000
Domain Name	R250/year
Hosting	R2,000/year
SSL Certificate	Included
Maintenance	R1,500/month
Testing	R3,000
Total Estimated Cost	≈ R50,000
